Crane Lakes
GOLF & COUNTRY CLUB

From the Management Office...

2016 DIRECTORIES ARE IN!

Please stop by the office to pick up your 2016 directory during office hours. Please only **ONE** per household until everyone gets a copy. Thank you

ATTENTION RESIDENTS

To protect yourselves, please use licensed and insured contractors per the prospectus. It might be a good idea for you to know the background of anyone you invite onto your home site for any reason. You are responsible for the conduct of persons you invite into the community.

RENT IS DUE ON THE 1st of EACH MONTH

Remember, your rent is due on the 1st of each month. Late fees begin accruing after the 7th day of the month. To avoid late fees, please have your rent in the office by the 1st. If you have any questions, please refer to your prospectus. Automatic debit from your checking account is available, just call our office.

FERAL CATS, CRANES, DUCKS AND OTHER WILD ANIMALS

Please do not feed the **feral cats, cranes, ducks or other wildlife** in the community. They become a nuisance to your neighbors when they see you as their food source. It also can attract other animals to the area or create animals digging under your home. We are getting complaints concerning cranes destroying resident's property. Feeding **cranes** can caused them to be more aggressive. We are getting complaints also about some residents throwing bread out for the **ducks**. This is drawing rats to gather in the surrounding area. It is the resident's responsibility to hire a licensed and insured trapper when wild animals become a problem for you and your home. Please consider everyone in the community before feeding any wildlife. Please **see inserts** on the danger of feeding wild life. Thank you.

RECLAIM WATER

Due to the lack of rain, the city of Port Orange has suspend all reclaimed water use between 8:00 am to 8:00 pm every day of the week. Absolutely no watering will be allowed any other time. No testing of sprinklers for any problem can be checked between 8:00 am to 8:00 pm.
Odd number homes can water only on Monday, Wednesday and Saturday's
Even number homes can water only Tuesday, Thursday and Sunday's
No watering at all on Friday's.
Watering is only allowed from 8:00 pm to 8:00 am
These restrictions are from City of Port Orange

CAMPAIGN SIGNS

We have received many complaints on political signs being placed on the lots. We are allowing one (1) campaign sign **ONLY** during the months of **October and November** (until Election Day Tuesday) to be placed in your flower bed. They may not be on the home or in the grass. Please **do not** put the signs out until October. Thank you.

CRANE LAKES MANAGEMENT STAFF
Vicky Moore—General Manager
John McCloskey—Community Manager

Office Hours
Monday through Friday
10 a.m. to 12 p.m. and 2 p.m. to 4 p.m.

Please direct any maintenance requests, complaints and/or suggestions to our main office in the Clubhouse:
Telephone: (386) 304-6777
Facsimile: (386) 304-9547
Email: cranelakes@cfl.rr.com
Mail: Crane Lakes Golf & Country Club,
1850 Crane Lakes Blvd., Port Orange, FL 32128

Why is feeding cranes prohibited?

Cranes fed by humans can become aggressive toward people. In several instances, children have been attacked by cranes. **Cranes fed by humans also have been known to damage window screens and do other property damage**. This behavior is probably a response of the birds to seeing their reflection, bringing out a territorial defense behavior (scratching at windows or shiny automobiles). Cranes also are more likely to tangle in human garbage in areas populated by people. Cranes are more likely to crash into power lines in urban areas where such aerial hazards are concentrated. Cranes attracted to people's yards for feed are put at risk as they walk across roads. Attracting cranes to urban areas increases the threat of predation (especially to young cranes) by dogs or cats. Further, the cranes' diets, which normally are quite diverse, are disrupted when they eat one food item (such as corn), consistently. Heavy pesticide use in urban lawns also is of concern. Young sandhill cranes have died from pesticide poisoning.

Conclusion

It is never a good idea to feed wildlife. People inadvertently put cranes in harm's way when they attract these birds to their yards with feed. Florida sandhill cranes have an abundance of natural foods (insects and small animals) **and they do not need handouts from humans.** There are many reasons why cranes should not be intentionally fed by humans. For the good of the cranes, please do not feed them.

Four things you can do to better coexist in "Crane Country"

- Never feed cranes and encourage your neighbors not to feed cranes. Cranes are less likely to inhabit urban areas if easy meals are not provided.
- Cover or move automobiles so that cranes cannot see their reflections in the shiny surfaces. Windows or glass doors that the cranes attack can be temporarily covered with material so that the birds do not see their reflections.
- Temporarily cover windows or screens. A string mounted on stakes about 2.5 feet off the ground will provide an exclusion "fence" around the parts of homes (window or pool screens) that are being damaged by cranes.
- Accept some digging for food. Cranes sometimes damage lawns and gardens as they dig for food such as mole crickets and beetle grubs. The birds, in this case, provide natural "biological control" of these common pests of turf.

FEEDING DUCKS

It seems harmless enough, feeding bread to the ducks. Most bread is essentially junk food to them, although white is the worst, and can cause a range of problems, including a debilitating disease called "angel wing."

White bread has essentially no nutritional value – it's packed full of calories and has little else to offer. Continuously feeding it to birds causes them to rely on us for a food source rather than their natural diet. It's the equivalent of only feeding your children unhealthy foods; they'll eventually get addicted to it, and will find it very difficult eating, or wanting to eat, anything else. So, at the very least, feeding ducks bread is giving them a readily-accessible unhealthy diet, leaving them ultimately malnourished. At the far end of the spectrum, there's "angel wing." This is a disturbing condition that causes the bird's wings to point out laterally, rather than resting against the body, rendering them in many cases unable to fly. It's an incurable condition brought about as a result of a high-calorie diet, one extremely high in protein and carbohydrates, and low in vitamins D, E and manganese – the exact diet a bird would get if they primarily ate white bread. Without being able to fly, these birds soon die. The effect of lobbing bread into the canals and ponds across the land goes far beyond the detrimental effects on the health of water fowl: It pollutes waterways, causing poisonous algal blooms, promoting the growth of suffocating molds, and attracts infection-riddled vermin to the area. Remember: Just because something's been done for a long time, it doesn't make it right. That includes feeding bread to ducks

The Problem with Feeding Cats Outdoors

Cats make wonderful pets when they are kept indoors. Cats that are kept indoors do not prey on songbirds; cats that are kept indoors are fed indoors, where other animals – especially raccoons – cannot access their food. Cats that are kept indoors do not defecate and do not spread parasites contagious to people throughout the environment.

There are five serious public health concerns associated with outdoor cats: two are related to raccoons that are drawn to cat food and three are related to parasites in cat feces.

1. **Rabies is a fatal disease**. In the past eighteen months, Volusia County has had six positive rabies cases: 4 cats and 2 raccoons.

When food is left outside for cats, raccoons will find it. The raccoon is Florida's wildlife reservoir for rabies. No self-respecting raccoon will turn down cat food – not even in the daytime. So these typically nocturnal animals will become active in the daytime if they know that food is available. Did you know that it costs over $5,000.00 to go through the post-exposure series of rabies inoculations if you are bitten by a raccoon or a rabid cat? If an innocent resident - or their visiting grandchild - is bitten, who will pay for it? The feral cat feeders? The homeowners' association?
Rabies vaccination is required by law for all cats and dogs in Florida. Can the feeders provide documentation that the cats that are roaming outdoors can be identified with a microchip and are current on rabies vaccinations? Note that the three-year vaccines only provide three years of immunity when given *as a booster;* they only provide only one year of immunity when given as an initial inoculation.

2. **Baylisascaris : The raccoon roundworm**. This was first reported in Volusia County in September 2013 at a business off of Nova Road in Port Orange. If humans accidentally eat something that is contaminated with raccoon feces (like a child who might put a piece of infected bark in his mouth), the results can be devastating. This parasite prefers the nervous system and the larvae continue to increase in size as they migrate. Most of the 30 cases diagnosed in the United States have been fatal; those who survived had severe neurologic impairment. By the time a person has symptoms severe enough to go to the doctor, the disease is already advanced.
3. **Hookworms [Ancylostoma]: "Creeping Eruption" (Cutaneous Larva Migrans)**. Anything that eats will poop. Cats that are fed outside will poop outside and cats that poop outside will distribute parasites throughout the environment.

   Outdoor cat feces have an 80% chance of having parasites that are transmissible to humans.
   This is what hookworm larvae look like when they get under human skin.
   Outdoor cats use mulch – and golf course sand traps – as a latrine.
   Is this an acceptable risk for the people who maintain the beautiful grounds and the golf course for Crane Lakes?
4. **Roundworms [Toxocara]: (Ocular Larva Migrans)**If a person accidentally gets something in their mouth that is contaminated with roundworm eggs from cat feces, and if the larvae migrate to the eyes, blindness can result.
5. **The Epidemiology Division of the Volusia County Health Department can be contacted at 386-274-0634 for further information.**
6. From the Port Orange Municipal Code [Online content updated January 14, 2015]: Section 10-11. - Regulation of animals.
7. No animal shall be permitted or allowed to run at large. It is a violation of this chapter for the owner of an animal to permit or allow the animal to run at large.
8. No animal shall be permitted or allowed to cause a nuisance. It is a violation of this chapter for the owner of an animal to permit or allow the animal to cause a nuisance.
9. No animal shall be permitted or allowed to defecate or urinate upon any public property or upon any private property without permission of the property owner. It is a violation of this chapter for the owner of an animal to permit or allow the animal to defecate or urinate upon any public property or upon any private property without permission of the property owner.
10. The feces of any animal deposited upon any public property, or upon any private property without permission of the property owner, shall be promptly removed and disposed of. It is a violation of this chapter for the owner of an animal to refuse or fail to remove and dispose of any feces of the animal deposited upon any public property or upon any private property without permission of the property owner.

Crane Lakes
GOLF & COUNTRY CLUB

News from YOUR Golf and Country Club!

Tips from the Tee - Why you SLICE the Ball

If you slice the ball, and 90% of all golfers do, read this very closely. I know this is going to sound way too simple, and after reading this you're going to say to yourself, "there has to more to it than that". The simple truth is there are 2 reasons why you slice the ball and that's it. Pay attention to these two things, fix the problems that follow and cure yourself of that dreaded SLICE!

1. ***Open Clubface at Impact***- *Caused by too weak of a grip (rotate your hands to the right at address). Then learn to rotate your forearms counter clockwise through the hitting area at the bottom of your swing.*
2. *The **Path of the Club cuts across the target line at impact***- The *club head must travel down the target line at the moment of impact if you want the ball to fly straight.*

That's it! Pay attention to those two items and you will hit the ball straight.

Just a Friendly Reminder about our Golf Cart Policy

1 player = 1 Cart **2 players = 1 Cart**

3 Players= 2 Carts **4 Players = 2 Carts**

5 Players (when approved by the Golf Staff) = 3 Carts

In an effort to provide the absolute best possible course conditions we ask that everyone adheres to the following Golf Cart policy at all times. This policy was established and agreed upon by your MGA, WGA and Professional Staff. In certain situations exceptions may occur for a short period of time. Example: A fourth player joins a three player group after they have started. At the turn or at the earliest possible time they will pair up on 2 carts.

Special Needs Players: Players who need an exemption from other cart policies such as driving closer to the green needs to be approved by the Golf Staff prior to play. Once approved, those players with injuries or physical issues that would otherwise make it impossible to play golf may drive/park in otherwise restricted areas. Restricted areas are all areas within 30 yards of any green. Under no circumstance is any cart allowed within **10 yards** of any tee or green unless it is on a cart path. When conditions require Cart Paths only, all players will remain on the path at all times with all four tires on the path.

Upcoming Events

IMPORTANT NOTICE

A MESSAGE FROM YOUR HOA

Happy September! Please remember that you must be an HOA 2016 member to vote in the November elections and budget vote. We encourage you to become a member and join us for the September 8, information meeting.

We will share budget information and news about our membership drive. We look forward to your comments and suggestions.

SHARING THE SPACE CARD ROOM

We have many groups who use the ladies card room for enjoyment. This is a very small room, and voices do carry. Please have consideration for all who are using this room.

A tablecloth should be put onto the glass tables, to protect them, when you are playing with any type of dice.

If the room gets too crowded, you might consider changing the day in which you are playing cards etc.

COURIER ARTICLES

The Crane Courier is printed each month for the enjoyment of all Crane Lakes Residents.
It is an important tool to have all of the "happenings" going on each month, here in the Community.
In order to have The Courier be able to be the important piece of communication each month, we must have certain guidelines.
If you are submitting a flyer for an upcoming event, please note the following guidelines!

Do not have any dark backgrounds in your flyer. This takes up too much ink and does not copy well. Or a lot of black in your pictures etc.

1. **Before submitting an HOA flyer to be printed, it must be given to your HOA President or Activity Chair to clarify the information.**
2. **The flyer will be a full page the first month**
3. **The flyer will be a half page the second month.**
4. **The HOA Qualify to win will be inserted once a quarter, rather than every month.**
5. **The deadline to submit an article is the 15th of the preceding month. There should not be any articles submitted after this date, in order to have the Courier typed and sent to the printer on time each month. Remember we are not the only item the printer has to print each month, we have to give them the proper time frame.**
6. **Submit your articles in the following manner**
    1. **Drop them off at The Management Office**
    2. **E-mail them to** aedwards171@cfl.rr.com
       Articles should not be dropped off at The Crane Lakes Sales Office
    3. **ITEMS CAN NO LONGER BE DROPPED OFF AT 1898 BIG CRANE LOOP – ANDY DOES NOT LIVE THERE ANY LONGER. PLEASE FOLLOW THE ABOVE STEPS.**

As the liaison to the Bereavement Committee, I would like to say "Thank You" to this wonderful group of people who help our residents in their time of need.
They give time and service a days' notice to comfort the family members who have recently lost someone dear.

Recently we have lost a few volunteers, so if you have a little time to give, come on board.

Contact: Tom Silk 492-3169
Or Betty deWeil 304-5498

CLUBHOUSE MAILROOM

We do not have a list of volunteers
For the delivery of community mail at this time.
If you are celebrating a birthday or have an event in your life,
And you think that someone might be sending you a card,
Check the box for your street in the mailroom.

As Christmas and the holidays get closer, we will be seeking volunteers for delivery of the large amount of mail that is generated during that time.

Free Workshop Reveals . . .

What You Absolutely Must Know About Building And Protecting Your Assets In An Uncertain Economy

Dear Friend,

At this 55 minute, complimentary dinner seminar for retirees and soon-to-be retirees, you'll learn . . .

How to Leave a Legacy - Annuities and IRA's can be a tax trap for your heirs. Learn about the "Tax-Free Piggy Bank." Great for cash in bank accounts earning near zero rates.

Retirement Income – 50% of retirees will live to age 92. Will you have enough income? Learn how to maximize and guarantee it for you and your spouse.

Investment Risk Management – Are you aware of the risks you are taking with your investments? How about the hidden fees you are paying? Learn about these topics and how it can be fixed.

How To Protect Yourself and Your Money - From the next market downturn and also be positioned to take advantage of the rebound.

Estate Planning – How to ensure your loved ones receive your assets most efficiently; minimizing taxation and avoiding probate.

As a Bonus – We promise you will learn 3 to 4 things you have never heard before that are vital to the success and happiness of your retirement years.

However, **YOU MUST MAKE A RESERVATION.**
Please call **1-386-673-7320** (Toll Free 24 hrs.) and leave your name, number of people attending, and phone number. Please call immediately as these fill-up quickly. We look forward to meeting you.

Date:	**Thursday, September 22nd**
Time:	**5:00 p.m. (We start right on time)**
Place:	**Crane's Roost Restaurant**
	Crane Lakes Clubhouse

With Warmest Regards,

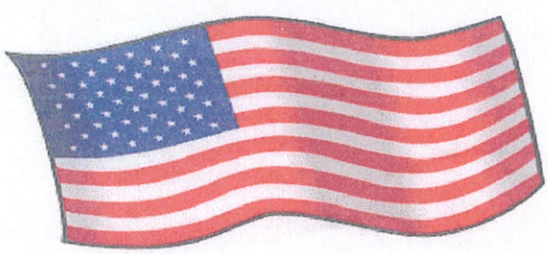
Lunch will be in the Ballroom at approximately 1:30 p.m.
(No golf shoes allowed, please bring a change of shoes)



CRANE LAKES RESALE OFFICE

Market conditions remain fairly slow for selling homes here usually until mid-October when our seasonal buyers start returning to Florida. However, we continue to see a steady traffic of potential buyers that have been keeping track of our listings to see if anything new comes on the market that may interest them. The general sales trend continues to be homes under $100,000 are in a significantly higher demand than those over that benchmark number.

Our onsite, Crane Lakes Resale Office, continues to be the #1 option for either buying or selling a home in the community. A complete recap of our active up to date listings, complete with interior photos, can always be found on line at www.cranelakes.com under the "Buy a Home" tab.

Year to date we have contracted the sale of 36 homes which is exactly even with 36 sales a year ago. Prices also seem to have flattened out, as the average selling price per home has remained within $1000 of last year's average sales price per home. We still continue to sell in excess of 90% of all homes sold here in Crane Lakes. This is a trend our office is proud to have achieved every year since 2005.

You are invited to stop by and pick up listing information that you may want to share with your family and friends. Please remember our referral program; if a Crane Lakes resident brings a new customer to our office that ends up buying one of our listings during the month of September, we will thank the resident with a $100 referral check after the closing occurs.

Contact Doug Peck, Joan Dwyer or Andy Edwards at 386-304-0983 or email our office at Doug.cranelakes@gmail.com for an appointment to view any of our listings or for a free market evaluation.

Our current office hours are:

9:00 - 4:00 on weekdays

10:00 - 2:00 on Saturdays

Sundays by appointment only

RETIREMENT – A CHILD'S VIEW

After a winter break, a teacher asked her young pupils how they spent their holiday. One small child wrote the following:

We always used to spend holidays with Grandpa and Grandma. They used to live here in a big brick home but Grandpa got retarded and they moved to Florida. Now they live in a place with a lot of other retarded people. They all live in tin boxes. They ride on big 3-wheeled tricycles and they all have name tags because they don't know who they are. They go to a big building called a wrecked hall, but they must have got it fixed up, because it's alright now. They play games and do exercises there, but they don't do them very good. There's a swimming pool there, but they stand in it with their hats on. I guess they don't know how to swim. As you go into their park, there is a doll house with a little man sitting in it. He watches all day so they can't get out without him seeing them. When they can sneak out, they go to the beach and pick up shells.

My Grandma used to bake cookies and stuff, but I guess she forgot how. Nobody cooks—they just eat out every night and they eat early birds. Some of the people don't know how to cook at all, so my Grandma and Grandpa bring food into the wrecked hall, and they call it "pot luck."

My Grandma says that Grandpa worked all his life and earned his retardment. I wish they would move back up here, but I guess the little man in the doll house won't let them out!

Need Insurance for your Manufactured Home?

LADIES BOOK CLUB

We meet in the Ladies card room the third Thursday of the month from 8:30 – 12:00

Crane Lakes Food & Wine Club

Est: 2014

"Bring What You Like" was the theme for our last meeting on Sunday the 14th of August and what an eclectic selection of food and wine arrived. Over 30 members enjoyed what their friends enjoy on a regular basis.

The food ran the gamut from Baked Beans & Franks to Chopped Chicken Liver with a great selection in between. There was large Shrimp Cocktail, Cheese Tortellini in tomato sauce, Baked Creamy Chicken and Fettuccini, Bruschetta with aged Balsamic, Fresh Dates stuffed with Cream Cheese among others.

We enjoyed a delicious English Trifle and well as a Banana Cream Pie for dessert.

What a group of wines!! A great Louis Jadot Beaujolais – Villages,

A Mark West Pinot Noir, a very nice Alamos Red Blend from Argentina, a nice Ravage Cabernet Sauvignon from California, a Paso Robles Merlot, a Gnarly Head Old Vine Zinfandel, a Leese - Fitch Cabernet Sauvignon, an Italian Docetta d' Alba, a J. Lohr Cabernet Sauvignon and a Carlo Rossi Paisano. There were two whites that I did not get the name of, but one was a Chardonnay and the other a Pinot Grigio.

It was an interesting evening getting away from our regular format, but with our next meeting on September 11th we will need to discover the wines and food of the Coopersville, California growing region, which is the newest approved region in the Napa Valley.

Look forward to seeing everyone on September 11th !!

I would like to thank everyone in Crane Lakes for their cards and kindnesses during Tom's illness and after his passing.

He loved this community, as do I. It is a very special place with so many wonderful, caring, helpful people.

Thank you all,

Martha Wirkutis
